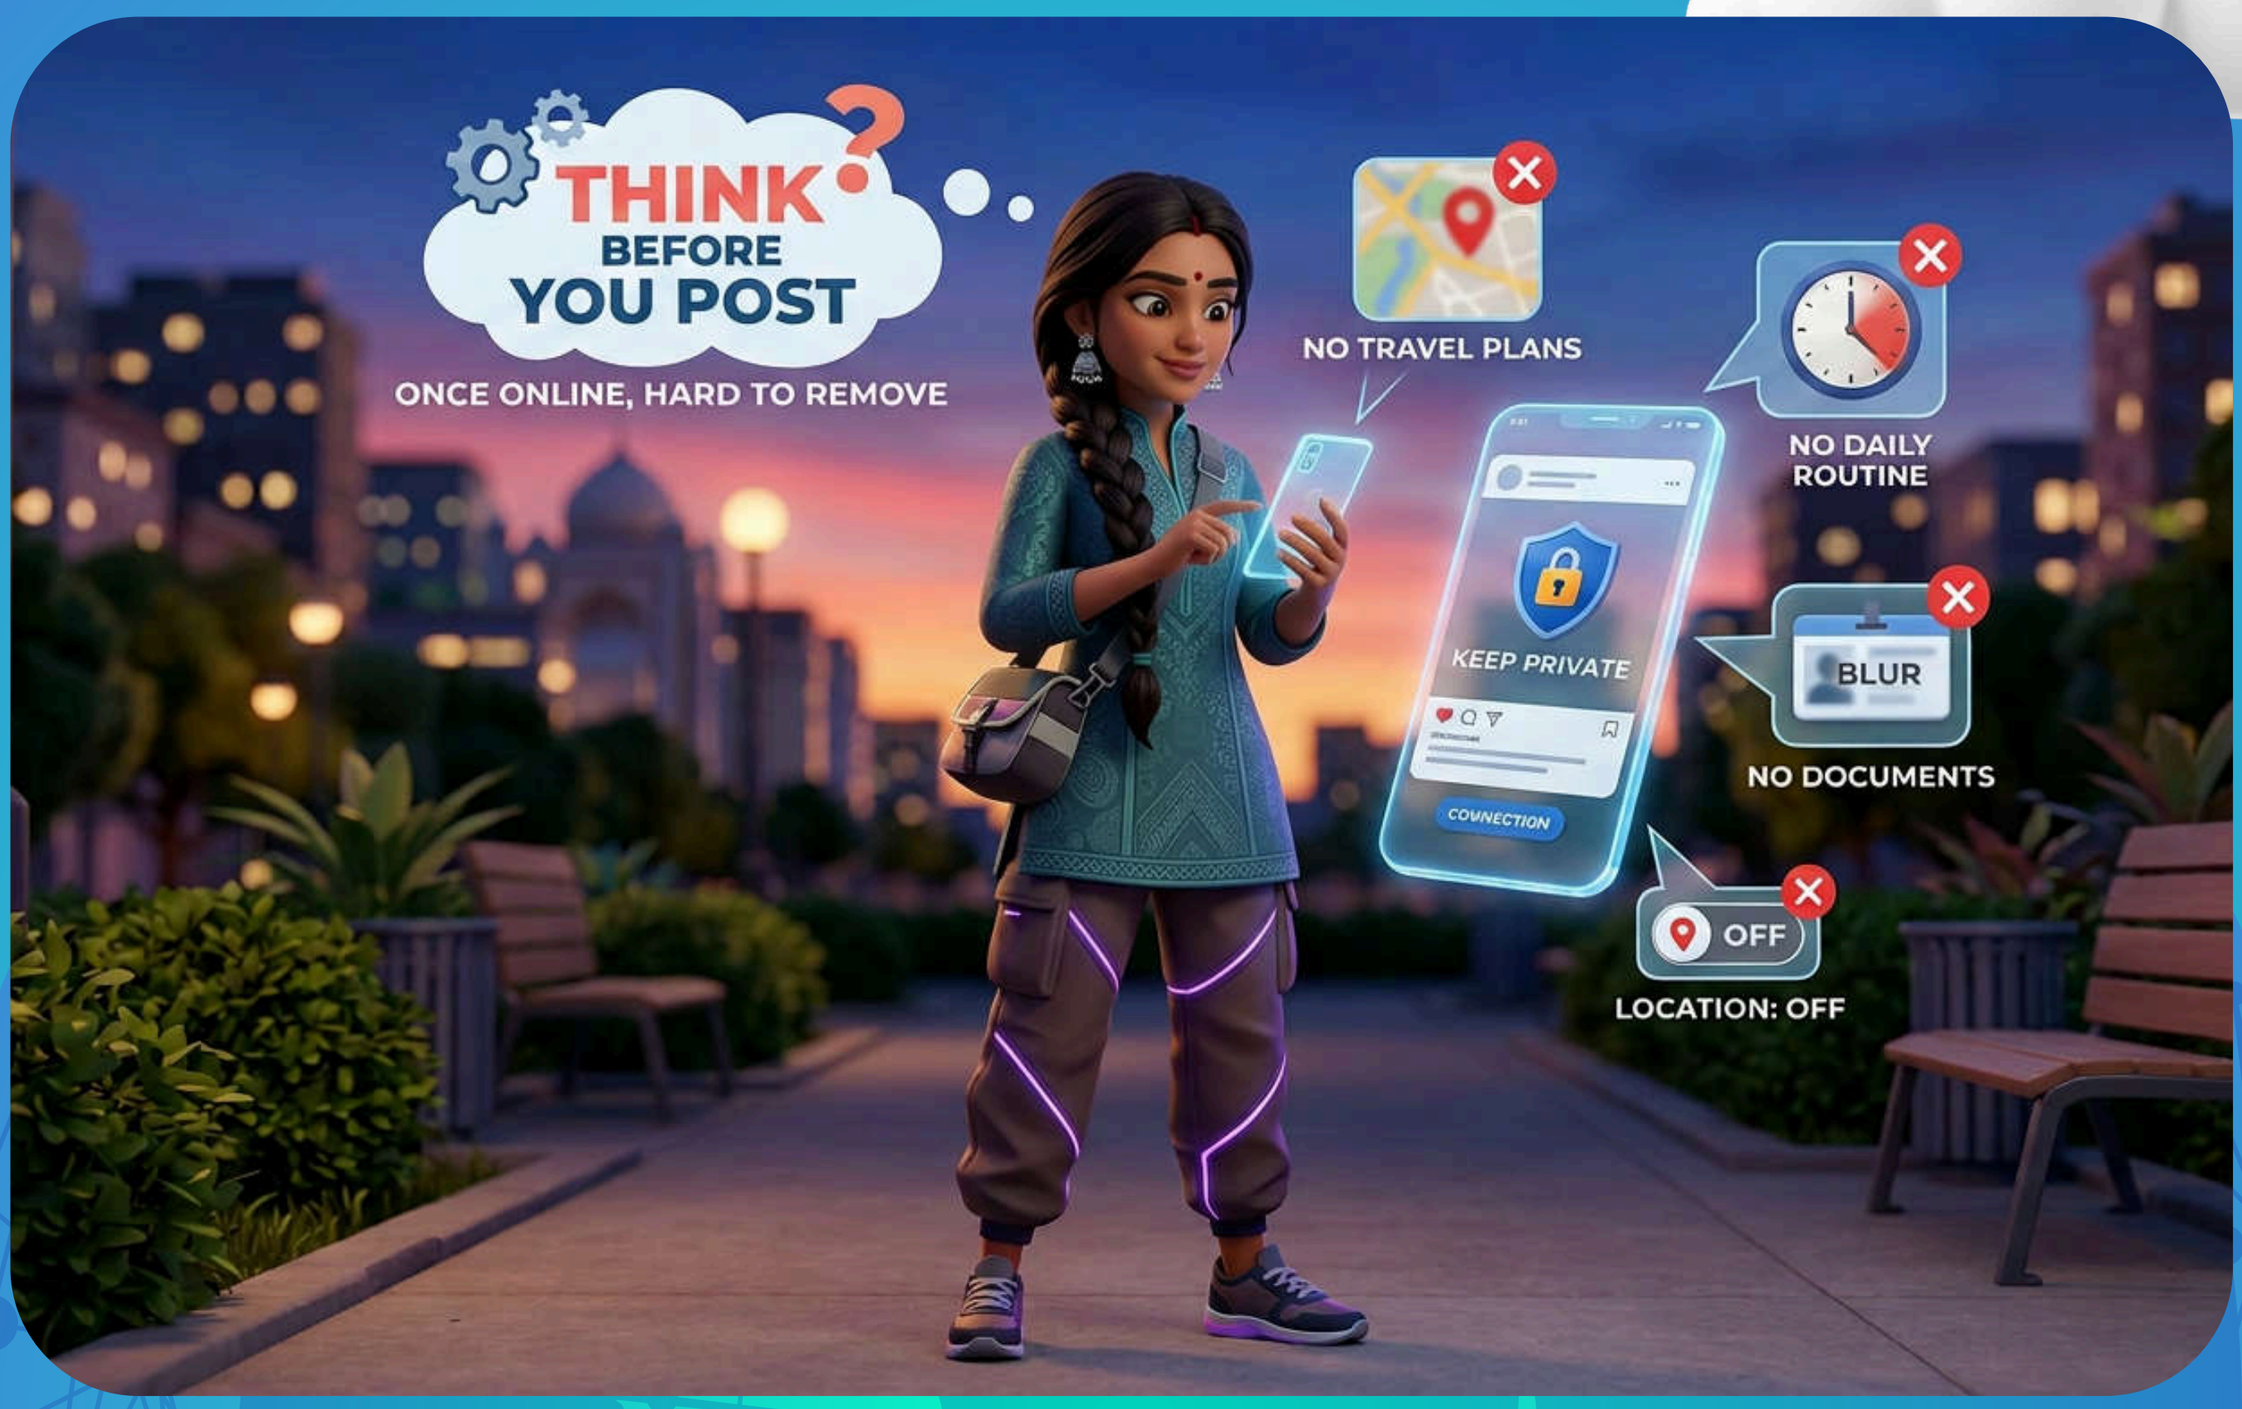
# GUARD YOUR DIGITAL FOOTPRINT



## Safety Tips

- Think before you post. Once something is online, it is hard to remove.
- Do not share personal details, travel plans, or daily routine online.
- Keep your social media accounts private so only trusted people can see your posts.
- Turn off location sharing when not needed.
- Avoid posting photos of important documents.

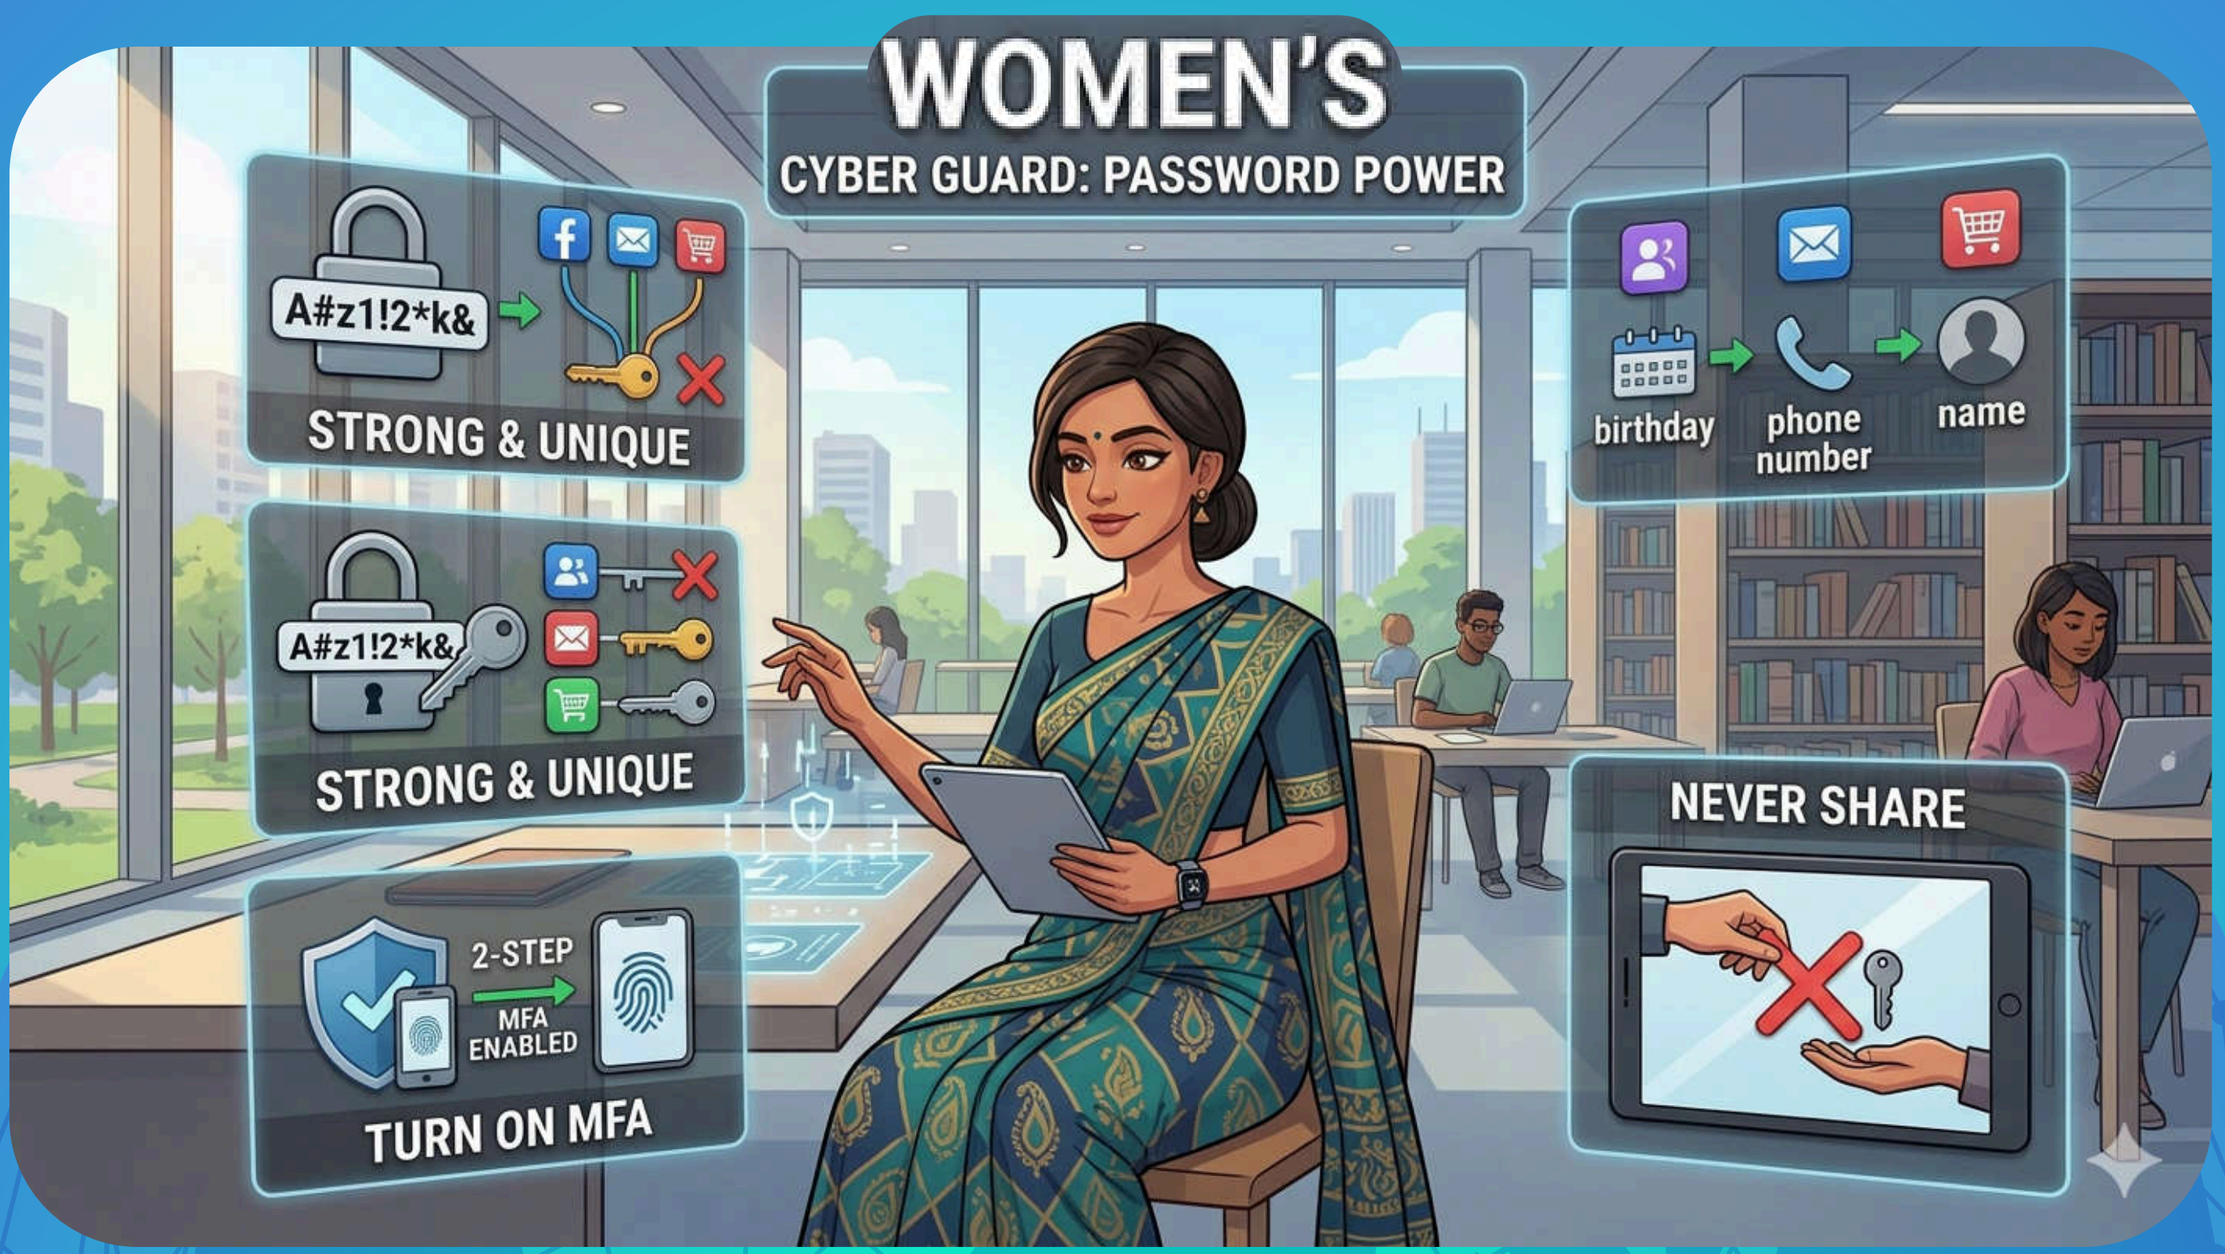
# BUILD YOUR PASSWORD FORTRESS



## Safety Tips

- Use a long password and strong password by mixing upper case and lower-case letters, numbers, and symbols.
- Do not use your name, birthday, or phone number or easily guessable passwords.
- Use different passwords for different accounts.
- Turn on Multi Factor Authentication whenever possible.
- Never share your password or OTP with anyone.

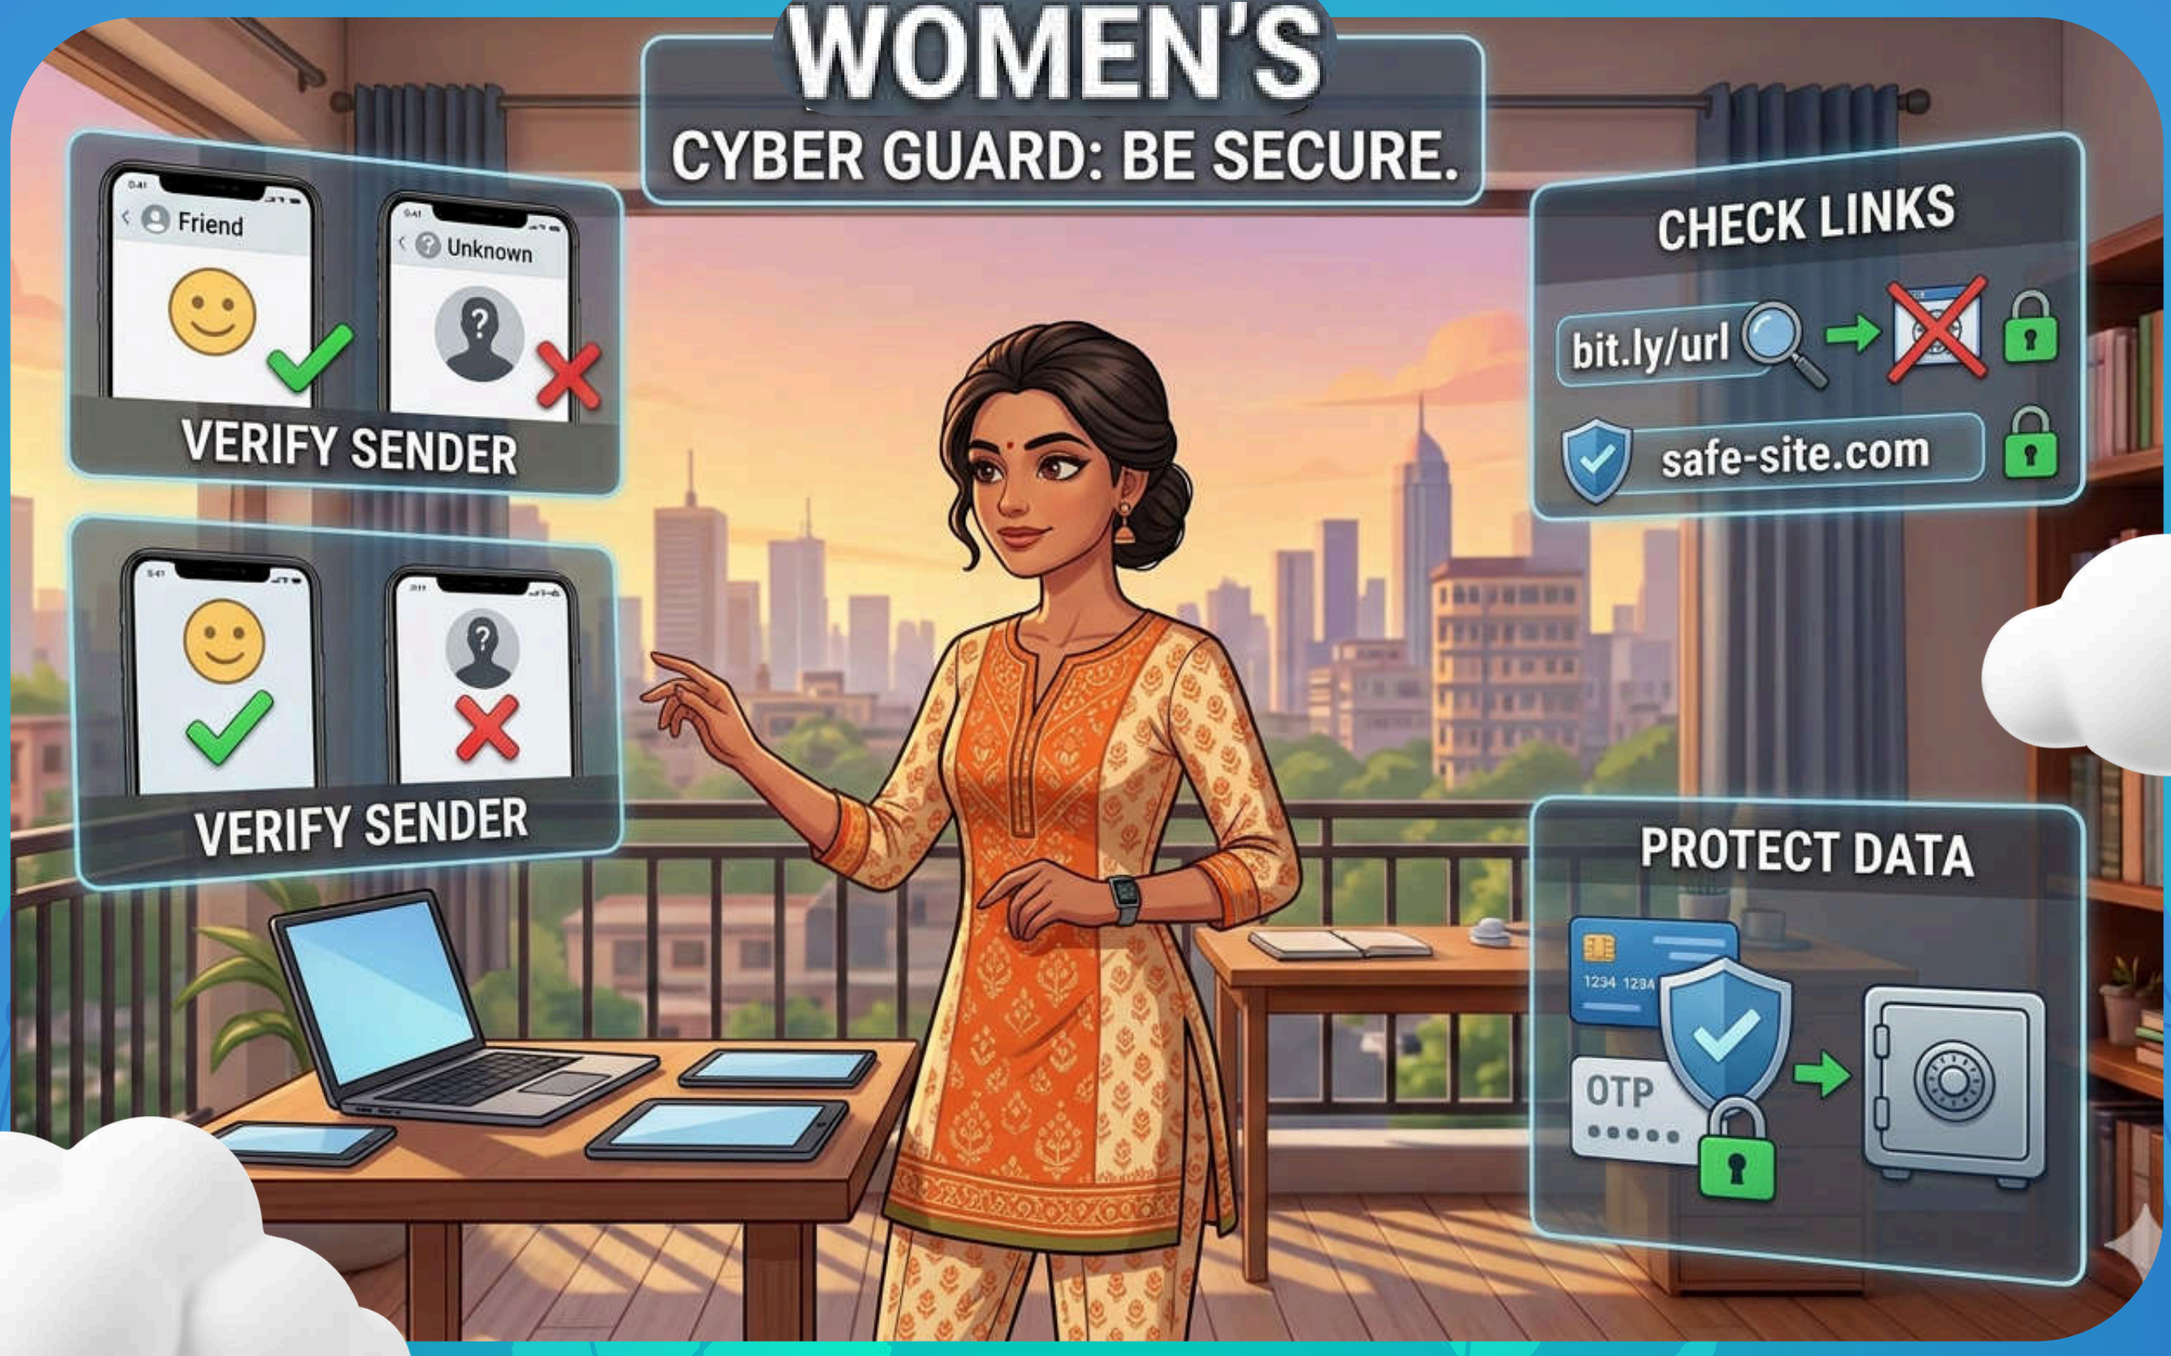
# OUTSMART THE SMART TRAP



## Safety Tips

- Do not trust urgent messages asking for money or OTP.
- Check the sender carefully before clicking any link.
- Do not click on unknown links sent by SMS or email.
- Do not click on Short URLs without expanding and verifying them.
- Never share banking information or sensitive personal information over phone or online.

# SMART TAPS. SAFE APPS.

## Safety Tips

- Always lock your phone with PIN, password, or fingerprint.
- Download apps only from official app stores.
- Update your phone regularly when updates are available.
- Check app permissions — do not allow unnecessary access to camera or contacts.
- Remove apps you don't use.
- Download free botnet removal tools from Cyber Swachhta Kendra website: *https://www.csk.gov.in/security-tools.html.*

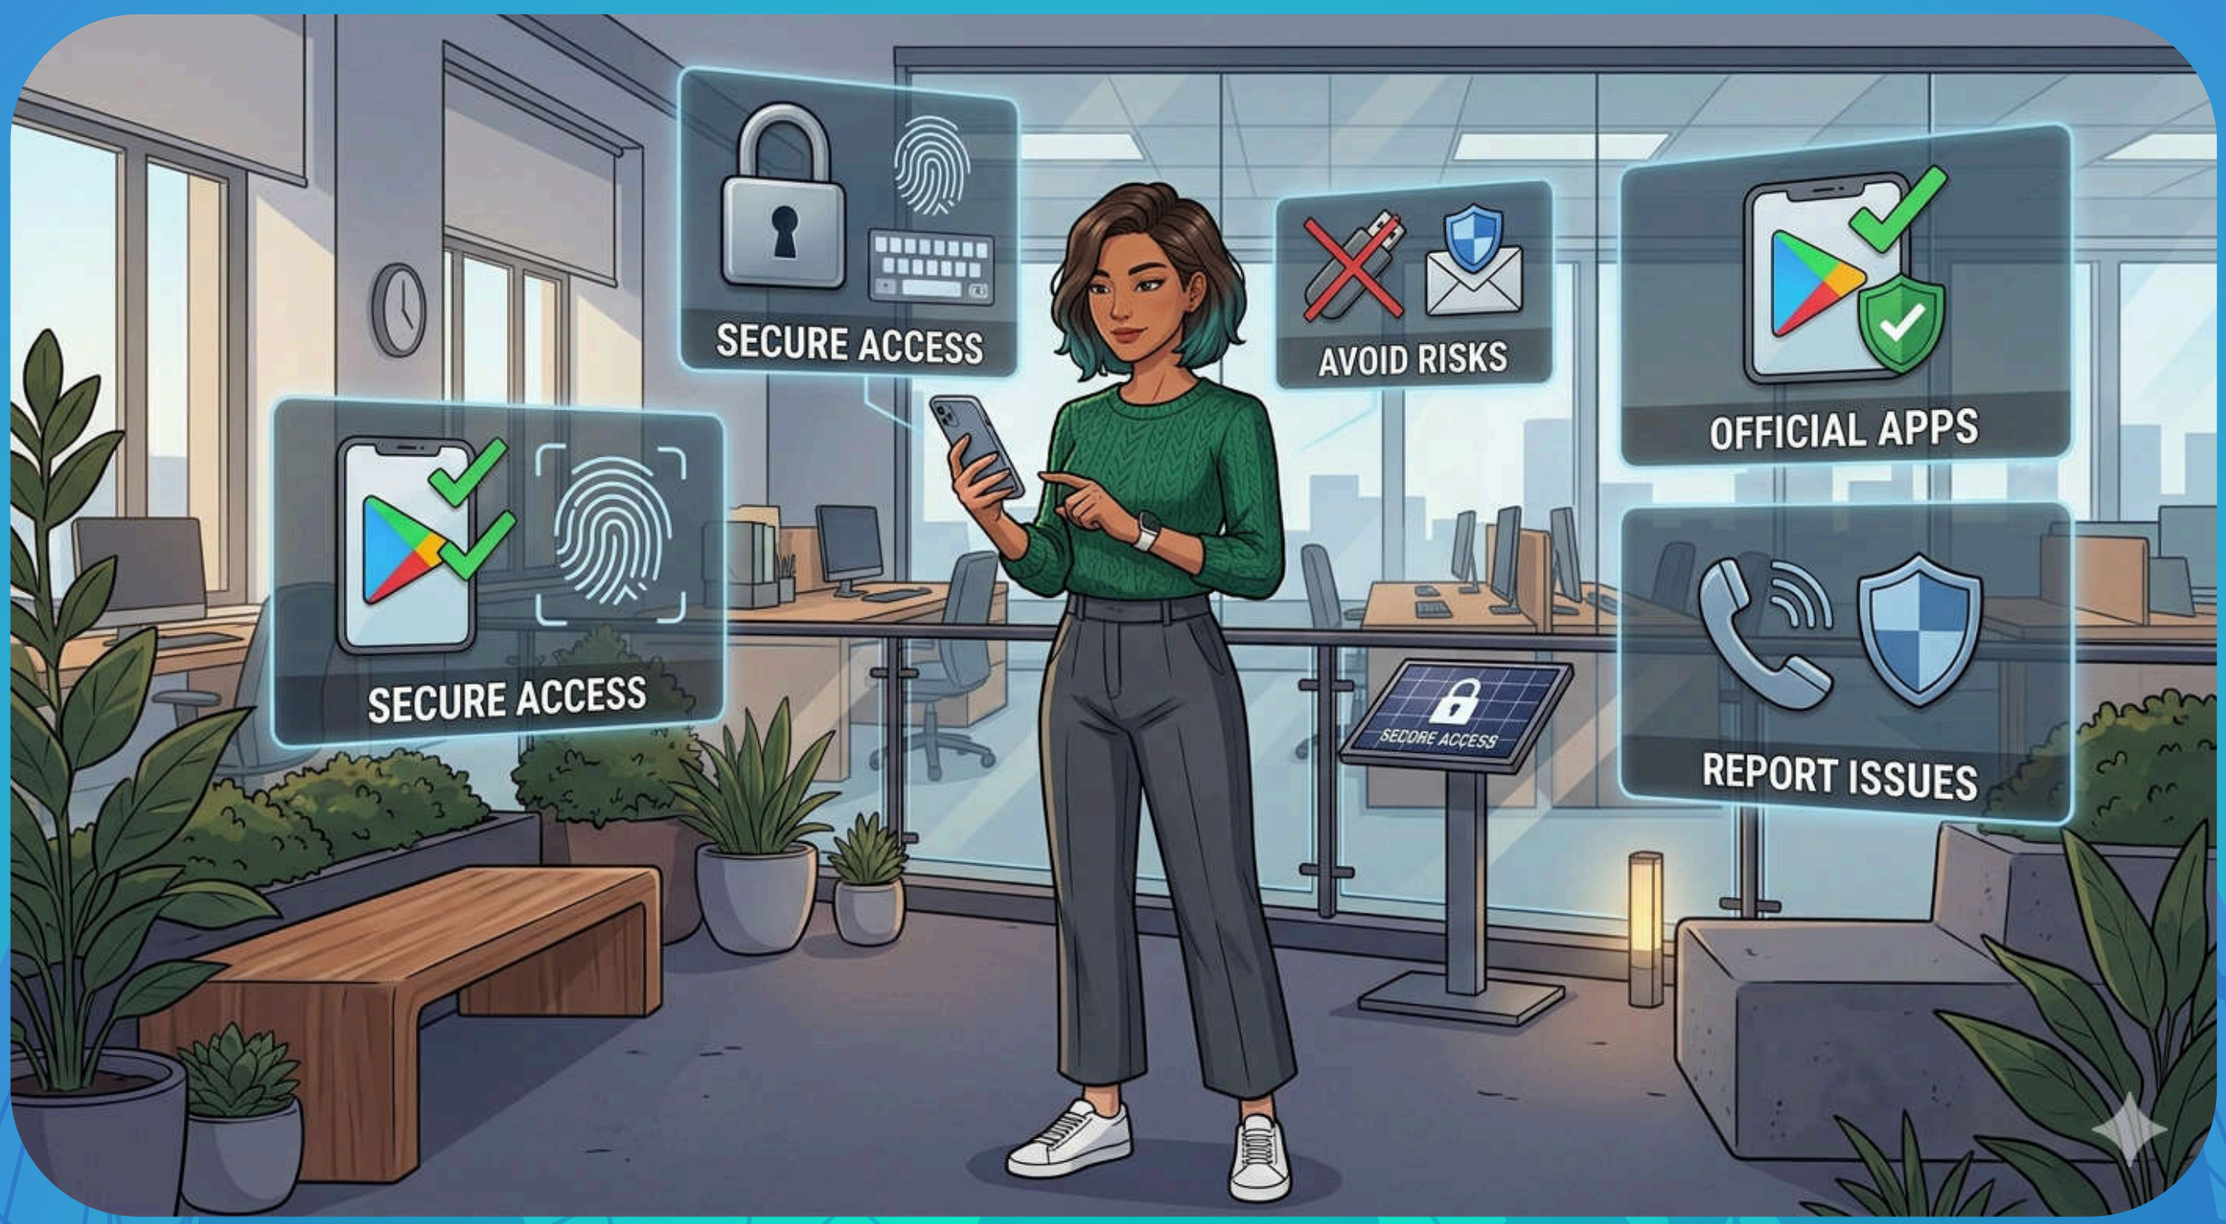
# SECURE DESK AND AVOID RISK



## Safety Tips

- Lock your computer when you leave your desk.
- Do not plug unknown USB drives into office computers.
- Use only approved software in office systems.
- Do not share office login details with anyone.
- Be careful before opening email attachments at work.
- Report suspicious emails or activities to your IT team immediately.
